New patented adjustable nozzle providing a broad range of texture variation with superior control

Knockdown, Fast Dry, Orange Peel Textures

TextureTek's "new" patented adjustable nozzle provides consistent results with accurate adjustability in spray and texture for a variety of applications.

Adjust the nozzle by turning the dial forward to control the amount of texture being sprayed to match existing texture and repaired area.

Seamless nozzle control from light to heavy texture, without the need for additional equipment

Professional grade product that can match new or existing wall texture finish within minutes.

Simply Shake, Adjust, and Spray.

Save time with TextureTek, it just works!
